

6 WAYS TO REDUCE COSTS & IMPROVE EFFICIENCY WITH TELEMEDICINE

1 REDUCING UNNECESSARY TRANSFERS

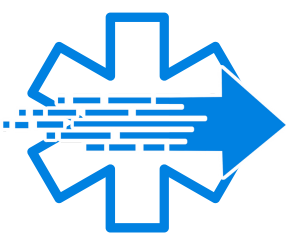

Keep more patients in-house

Retain additional billable services

Reduce transportation expenses

2 ENHANCING ED EFFICIENCY

Reduce wait times for evaluations

Reduce unnecessary hospitalizations

Support triage and faster decision-making

3 LOWERING STAFFING & OVERTIME COSTS

Reduce dependence on costly temporary staffing

Minimize burnout - offload non-emergent consults

After-hours & weekend coverage is available

4 DECREASING LENGTH OF STAY

Expedite specialty consults, prevent discharge delays

Optimize care coordination and treatment planning

Provide timely continuity of care with outpatient telemedicine follow-ups

5 PREVENTING READMISSIONS & PENALTIES

Deliver post-discharge virtual follow-up visits

Improve patient compliance

Enhance chronic disease management

6 MEETING VALUE-BASED CARE GUIDELINES

Align with quality-based reimbursement models

Improve patient satisfaction scores through enhanced care coordination

Meet federal & state incentives, improve overall financial performance
