

# Elevated Care through Comprehensive Telemedicine

## TeleNeurology Services

### Critical Neurology Coverage When Every Minute Matters

Specialist TeleMed delivers 24/7/365 access to board-certified neurologists, supporting hospitals and emergency departments with comprehensive TeleNeurology services, from acute stroke response to inpatient care. Our adaptability to hospital workflows accelerates treatment decisions, improves outcomes, and boosts tPA administration rates, enhancing care quality and operational performance.

#### STROKE & EMERGENT NEUROLOGY

STeM supports EDs with high-acuity neurology expertise, including:

- Rapid stroke evaluation and treatment recommendations
- Status epilepticus management
- Support for stroke certification and regulatory compliance

#### GENERAL NEUROLOGY CONSULTS

Beyond emergencies, our General Neurology services provide support for:

- Seizure disorders
- Headaches and migraines
- Movement disorders
- Neuropathy & neuromuscular conditions
- Altered mental status evaluations

#### INPATIENT NEUROLOGY ROUNDING SERVICES

Collaboration with hospitalists and intensivists, ensuring neurologic continuity of care.

- Daily follow-ups to prevent post-stroke, seizure, or neuro-critical complications

#### ADDITIONAL SERVICES

EEG Interpretations
