

Elevated Care through Comprehensive Telemedicine

TeleRheumatology Services

Rheumatology Care Wherever It's Needed

Patients with rheumatic diseases often experience long wait times to receive specialized care because of staffing or geographic limitations. Specialist TeleMed (STeM) offers flexible, high-quality TeleRheumatology services that bring expert care to patients no matter where they are. From early diagnosis to long-term disease management, our board-certified Rheumatologists support your care teams with thorough specialty input.
